EXPERIENCE

VIDEO PRODUCER

Crosspoint / *Niceville, Florida* 2015 - Present

I film and edit videos for our weekend services, special events, and social media including: life-stories from our congregation, creative worship elements, promotional videos for our ministries, event highlights, and weekly sermon uploads. In addition, I photograph numerous events and staff portraits for the website. I lead and continue to help build a thriving team of video, photo, and tech volunteers that assist with our many functions. As a way of giving back to the community, I have the privilege of mentoring middle and high school interns weekly by educating them in media communications and life skills.
